Dear Representatives Womack and Boren,

We strongly support your legislation, H.R. 1075, to end the refundable Volumetric Ethanol Excise Tax Credit (VEETC).

If enacted immediately, your legislation would save taxpayers nearly \$4 billion dollar in 2011. Experts like the Congressional Budget Office and the Government Accountability Office have already concluded that the subsidy is unnecessary, and leading economists agree that ending it would have little impact on ethanol production, prices or jobs.

We applaud you for your leadership on the issue and encourage Congress to pass this legislation swiftly.

Sincerely,
